Application Features

Commercial-grade, surface or pendant-mounted wrap-around bay luminaire. For use with indoor applications where contemporary styling and energy-efficiency are primary considerations.

Specifications

Optical System

The standard polycarbonate diffuser features a soft curve designed for an even and low-glare illumination.

Mounting

Offset mounting pads are formed within the housing and keep luminaire level and slightly off of the mounting surface. Mounts over electrical junction box. 12000 and 24000 lumen options are specifically designed for suspended mount applications, including stem, chain & adjustable aircraft cable.

Construction

Die-formed, code gauge steel housing. Ballast cover snaps into place eliminating the need for tools when accessing the ballast.

Finish

Post-painted, high-reflectance white housing.

Electrical

Long life LEDs coupled with high efficiency drivers, provide quality illumination. Rated to deliver L80 performance > 50,000 hours. Sufficient knockouts are provided for connections and through wiring.

Approvals

Approved to CSA/UL standards.
Tested in accordance to IESNA LM-79.
Suitable for damp locations.

DesignLights Consortium® Qualified.

All configurations may not be DLC qualified.
Check www.designlights.org/QPL for qualified configurations.

Warranty

5 year limited warranty. For complete warranty terms visit:
http://viscor.com/assets/Viscor_LED_Warranty.pdf

Features

- Standard low voltage dimming (0-10v)
- Diffuser is pressure- fitted into place to create a clean looking, easy maintenance lens.
- Shallow ADA design
- Continuous row-mounting capability
- Available in a variety of sizes - please consult the product key for options

Options & Adders

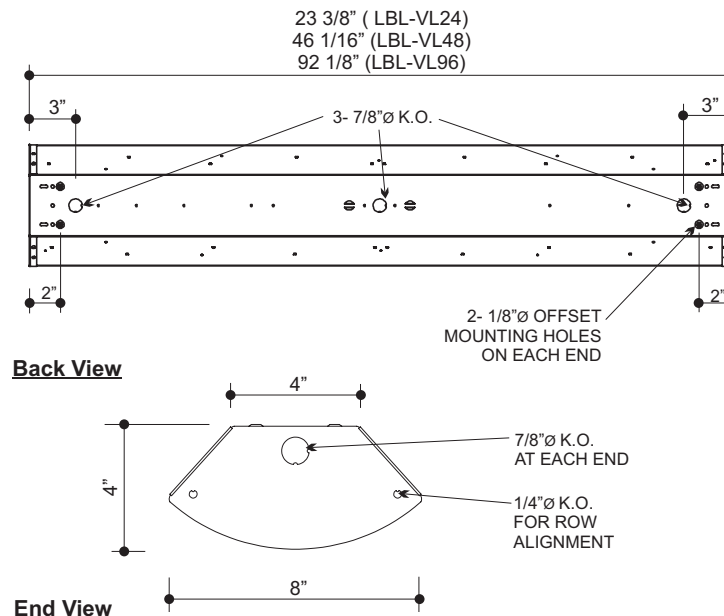

- Dimmable and Emergency battery pack

Applications

- Fitting Rooms
- Corridors
- Recreation Rooms
- Utility Areas
- Warehouse and Distribution
