

## CRTW

### Walk All Over Certolux's CRTW Luminaire Designed for Cleanroom Applications!

The new CRTW from Certolux is a specification grade luminaire that is the perfect choice for cleanrooms that use walkable composite ceiling systems. It provides serviceability from above the ceiling and works with a wide variety of ceiling types. The CRTW is designed for walking loads and rated for a static load of 800 pounds without damage.

The CRTW is UL Listed for wet locations, cleanroom rated ISO-3, certified dust tight and water resistant to IP65 for frequent rigorous cleaning practices. It has been tested according to ASTM-72 and E2322 for strength and load resistance.

#### LED

LED board modules are high efficiency and closely regulated to maintain CRI, color consistency, lumen performance and efficacy. Select from 3000K, 3500K, 4000K and 5000K color temperatures with a color consistency of 3 SDCM, standard 80 CRI, optional 90 CRI. Optional Amber LED arrays available alone or in combination with white LEDs. Lifetime L70 is greater than 60,000 hrs. Modules are field replaceable and commercially available.

#### Approvals:

- ETL Certified for recessed ceilings and wet locations
- Certified IP65
- Certified NSF2
- Cleanroom class ISO3-8

*Specifications and data subject to change without notice.*

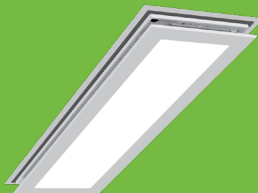

#### Features:

- Up to 25000 lumens
- Ceiling Compatibility 2"-4" Thick
- Convenient Lift Handles
- Serviceable from above

#### Common Options:

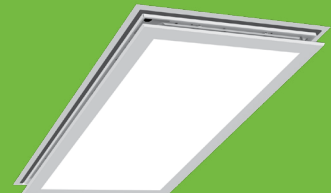

- Emergency Battery Backup Options
- Optional 90 CRI
