

CRU-MX₀

Maximum Performance Cleanroom Luminaire

The CRU-MX₀ series by Certolux is a specification-grade high output recessed luminaire that deliver high performance in high ceiling industrial cleanrooms.

The CRU-MX₀ boasts high efficacy LEDs directly coupled to radiating surfaces, ensuring a remarkable lifespan while providing up to 57,000 lumens of brilliant illumination. Its overlapping door design seals seamlessly to the ceiling and housing, completely covering the fixture flange. Triple gasketing ensures airtight protection, making it ideal for sterile environments. The CRU-MX₀ is UL listed as type Non-IC with Thermal Insulation Detection, providing added protection from accidental insulation contact and ensuring safety.

Illuminate your cleanroom with confidence—choose the CRU-MX₀ series for unmatched performance and reliability.

Features:

- Up to 57000 lumens
- Clear and Diffuse Lens Options
- Ready for 2500 PSI Wash-Down
- Thermal Insulation Detection
