

LTDCR-LRC

The Unresistable Luminaire

The new LTDCR-LRC by Certolux boasts a modern anti-ligature design that can enhance the aesthetics of any behavioral health space. This vandal-resistant specification grade recessed luminaire is flanged for hard ceilings. Not for use with grid ceilings. Anti-Ligature is a standard feature of this series. This luminaire also features tamper-resistant fasteners to protect from unauthorized fixture penetration and security lenses to maximize impact resistance. Government accepted for use in areas of high risk.

The LTDCR-LRC is certified as suitable for areas of high risk by the New York Office of Mental Health and can be found in their published guide.
