

MD1-DCR Color Tuning

Patient Room Lighting with Color Accent Control.

Certolux's MD1-DCR Color Tuning series of recessed patient room luminaire with superior white ambient illumination and an accent light that provides RGB full-range color tuning.

This series provides a sealed one piece smooth lens design, offering easy cleaning and maintenance. An optional low voltage controller is available to provide smooth dimming to the white light source and On/Off bedside control to both white and RGB color sources. RGB color tuning is powered by a DMX driver using a control system provided by others. A separate Chart/Night observation light option is also available to provide up to 500 lumens.

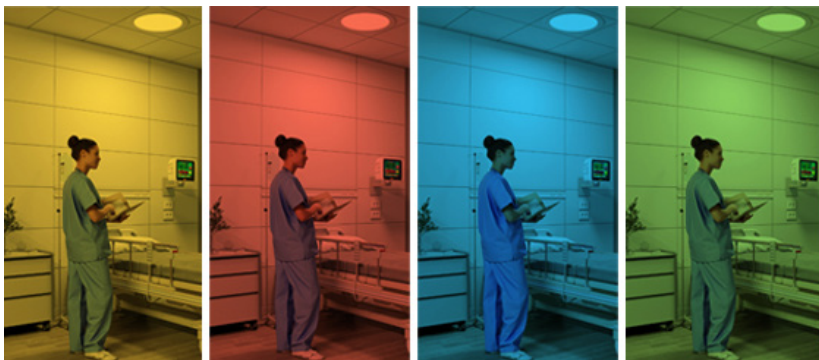

MD-DCR series of recessed patient room luminaires not only enhance the visual appeal of healthcare spaces but also prioritizes patient well-being and ease of use.
