

Our Unmatched Speed

University Health Network needed a quick lighting solution and Viscor answered.

Viscor's unmatched speed and flexible manufacturing capabilities were on display for University Health Network patient room project. Working with H.H. Angus & Associates Ltd. and Salex Inc., Viscor was able to produce and deliver our specification-grade IC-Rated MD2IG-4190 by Certolux within 1 Week!

This ambient/exam hospital fixture features antimicrobial paint that offers a one-piece hinged and latched door frame to allow for easy cleaning and maintenance. The dual compartment luminaire includes a perforated lens for visual comfort while providing optimal lighting for staff. The MD2IG-4190 eliminates the need for a wall mounted luminaire.
