

# VRU-LRC

## Recessed Ceiling Luminaire with Ligature Resistant Construction

The VRU-LRC series by Certolux is a recessed luminaire designed to resist ligature and intentional abuses. Developed from our popular VRU series the VRU-LRC model are found in the Guide and accepted for use in high-risk areas. They utilize tamper resistant hardware and durable polycarbonate lensing are standard.

The one-piece overlapping door seals directly to the ceiling and provides a durable yet clean appearance.

The mounting is intended for flanged/drywall or security ceilings. Most models designed to provide comfortable ambient lighting capable of fixed white, simple tunable white or Bios™ dynamic or static circadian lighting. An optional amber night light can facilitate bed-check without disturbing the patient.

VRU-LRC 2x2
