

VRUo-Plenum Access

Illuminate with Confidence, Defend Against Vandalism.

The VRUo-Plenum Access luminaire is part of the VRU family series by Certolux. This vandal-resistant specification-grade recessed luminaire provides access above the ceiling, through the fixture. Designed with both functionality and security in mind, VRUo is engineered to withstand the toughest environments while providing superior illumination.

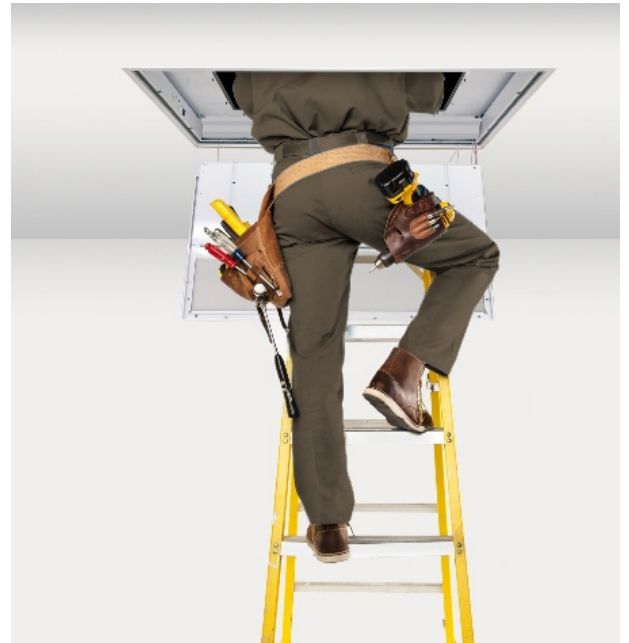

The luminaire also features tamper resistant fasteners to protect from unauthorized fixture penetration and security lenses to maximize impact resistance and is intended for flanged, grid, or security ceilings. The full assembly is tested to exceed the rating of IK10 for impact resistance.

Its robust construction ensures durability and safety in various environments such as

- Public Spaces: Ideal for transit stations, schools, and public restrooms where vandalism is a concern
- Institutional Settings: Suitable for hospitals, correctional facilities, and other institutions where safety and security are paramount.

Highlights:

- Easy access
- Less cleanup - back in service quickly
- Located near where you need to work
- Lower cost than security access panels
- No added installation labor

Available sizes: 2x2 | 2x4

Features:

- Shallow design, 4" deep with emergency
- Impact resistant IK10 rated
- Smooth lens for easy cleaning
- Room side access to all electrical components

Approvals:

- UL listed to CSA and UL standards for insulated ceilings and wet location
- IC Rated
- Certified IP65
- IK10 Rated
