

LHBT

Hitting the high note with Visioneering's LHBT luminaire.

The high and mighty LHBT by Visioneering is a high-performance recessed luminaire designed for lay-in low and high-bay applications. This luminaire is ideally suited for high ceiling applications in commercial offices, industrial environments, retail merchandising, educational spaces and many others. The LHBT delivers up to 30,000 lumens with an ambient operating temperature of up to 50°C.

The LHBT's clean and simple design allows for field installation of a frosted lens and or wireguard option without the need for a doorframe.

Highlights:

- Configurations up to 30,000 lumens
- 50°C ambient operating temperature
- Available in 2x2 and 2x4
- Configurations with or without lens
- Wireguard option
