

LMEZ 2

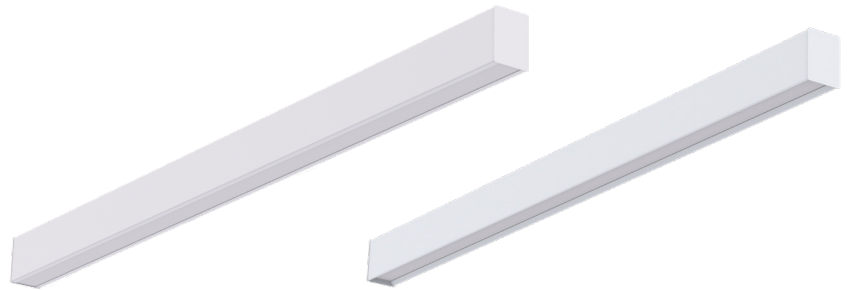

Enhance Your Modern Applications with Sleek Suspended Luminaires.

Visioneering's family of LMEZ 2 linear architectural luminaires offers a sleek profile and clean design for modern applications. The LMEZ 2 features multiple configurations and options suited for applications such as offices, boardrooms, classrooms, libraries, retail stores, and other architectural spaces.

These precision formed steel luminaires are designed for suspended applications and available with a frosted lay-in or regressed lens that offers a comfortable and pleasing visual experience along with general illumination. The LMEZ 2 is suitable for individual suspension or continuous rows where low profile linear lighting is desired.

Highlights:

- Sleek design with 2" width
- Continuous low voltage dimming (0-10V) 1%
- Lumen output up to 1000 lumens per foot
- Light weight and easy to install
- Available in lengths from 24 to 96 inches
