

LMEZ 3

Architectural Linear Lighting showcasing simplicity with versatility.

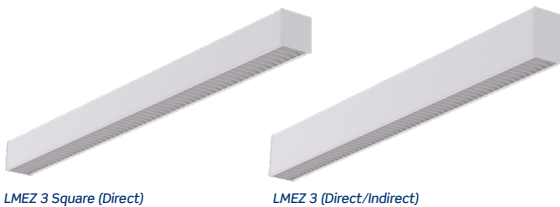

Visioneering's LMEZ 3 linear architectural luminaires combine clean lines and contemporary design with low-maintenance performance. The LMEZ 3 Square (Direct) and LMEZ 3 (Direct/Indirect) profiles feature multiple configurations and options suited for applications such as offices, classrooms, libraries, retail stores, supermarkets and more.

These precision formed steel suspended mount luminaires provide general illumination in both the horizontal and vertical planes. They are suitable for individual suspension or continuous rows where direct or direct/indirect linear lighting is desired.

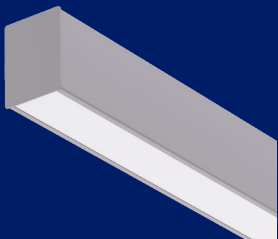

Highlights:

- Continuous low voltage 0-10V dimming to 1%
- Lumen output up to 1500 lumens per foot
- 3" width
- Light weight and easy to install
- Lay-in optics for hassle-free servicing

Glare reducing straight blade louvers

LMEZ 3 Square (Direct)
