

LMEZ Micro

Linear Lighting Made Easy

Visioneering's new LMEZ Micro is a slim profile LED linear solution. This precision formed steel suspended mount luminaire comes with a lay-in frosted lens that offers visual comfort for new-construction indoor architectural and retail applications. The metal fabricated LMEZ Micro is a practical alternative to extruded linear architectural luminaires and comes with 4-ft adjustable aircraft cables for mounting. Consult factory for alternate lengths.

Features:

- 1 Lay-in frosted lens
- 2 Available in nominal 4-ft and 8-ft lengths
 - A fixture width of 1-5/8"
 - 80+ and 90+ CRI
 - Standard low voltage dimming (0-10v)
 - Standard 4-ft 5-wire white cord power feed with aircraft cable

Applications:

- Lobbies
- Boardrooms
- Office Area Lighting
- Retail Stores and Supermarkets
- Suitable for damp locations

Specifications:

The LMEZ Micro features a formed steel housing and a white polyester powder paint finish. Long-life LEDs coupled with high efficiency drivers provide quality illumination, rated to deliver L80 performance > 60,000 hours.
