

LRTL

Where Value Meets Performance

Featuring a classic center-basket design and sleek curved reflectors, the LRTL recessed commercial troffer exudes elegance, making it the perfect addition to elevate any space. It also boasts exceptional efficiency, matching or surpassing 130 lumens per watt. Experience complete control over your lighting environment with standard low voltage 0-10V dimming, allowing you to effortlessly adjust the brightness down to 10%.

With its shallow design, installation of the LRTL luminaire is a breeze, seamlessly fitting into a wide range of applications. Whether it's offices, retail spaces, educational institutions, or healthcare facilities, the LRTL proves its versatility and adaptability, catering to your specific lighting requirements.

Whether you need vibrant illumination or a cozy ambiance, the LRTL has got you covered.
