

# Smart LED Retrofits

## For non-standard ceiling grids

In order to meet today's smart city goals, we offer 4 options that are integrated with name brand and market leading sensors and IoT ready controls for many types of non-standard ceiling grids.

Are you ready to combat rising costs of electricity due to distribution rates and other impeding energy factors? Then, it's no better time than now to re-visit your electrical lighting fixtures. We offer solutions to help combat those costs with one of our 4 SMART LED Retrofit luminaires options for your next project.

Viscor Smart Retrofit Options offers:

- Possible Applications:**
- Low-Rise Office Buildings
  - High-Rise Office Buildings
  - Commercial & Industrial Buildings
  - Apartments & Condominiums
  - Hotels and more.
