

## Save Energy with LED High Bays

Our family of High Bay luminaires are designed and built for demanding environments.

Visioneering's LRK-HBV LED Retrofit Kit High Bay Vapor Tight is a premium-grade luminaire. The LRK-HBV is designed as the perfect upgrade for an existing fluorescent enclosed and gasketed high bay luminaire (IP67). Upgrade existing fluorescent vapor tight high bay luminaires to high efficacy LED with ease. This High Bay gasketed luminaire helps to protect against moisture and debris.

### Compatibility

Compatible with Visioneering FHBV series, Lithonia FHE series, Cooper VT4 series, Columbia XEW4 Series, Philips DayBrite CFI series, SLP Lighting CIT4/4i Series and ILP Blizzard.

### Features:
