

Alto

Delivers Retro Charm with Modern Styling.

Visioneering's Alto designed to evoke nostalgia with its unique apertures and regressed lens, the Alto seamlessly blends vintage charm with contemporary brilliance. The full illuminated 1- $\frac{1}{4}$ " regressed aperture creates an optical illusion, giving the impression of greater depth and adding character to any space.

The Alto adds a touch of retro flair and enhances the aesthetic of any modern interior. But it's not just about looks; the Alto is engineered for superior performance. With energy-efficient LED technology, it delivers consistent, glare-free illumination, creating the perfect ambiance for various applications, from offices and retail spaces to hospitality and residential settings.

Visioneering's Alto helps in Lighting Your VISION.
