

LHBI

Compact, Contractor-Friendly Lighting with Exceptional Value

Visioneering's LHBI – our most compact and versatile high bay luminaire. Designed to excel in high bay environments, the LHBI offers outstanding value with its smart design and efficient performance.

This luminaire ensures consistent illumination with up to 160 lumens per watt for significant energy savings. For added flexibility, the LHBI Output Selectable version offers field-selectable lumen output, allowing you to adapt to various lighting needs.

Operating seamlessly across a temperature range from -20°C to 55°C, the LHBI is designed with contractors in mind, ensuring easy installation with straightforward suspended mounting and an optional flexible installation kit for stem mounting.

Choose Visioneering's LHBI for a high bay lighting solution that combines compact design, contractor-friendly installation, and exceptional value.

Features
