

LMEZ

Enhance Your Modern Applications with these Two Distinct Designs

Introducing the LMEZ Inverted V, Option P119 - the latest addition to our family of linear architectural luminaires. With its distinctive end-caps featuring an inverted V-notch and matching formed lenses, this luminaire epitomizes sleek and modern design. The LMEZ P119 boasts a striking design that adds sophistication to any space, enabling you to achieve a truly innovative aesthetic.

The LMEZ P95 option adds versatility and style to the LMEZ family. The drop lens offers a unique combination of form and function, providing a soft, diffused light that creates a warm and inviting atmosphere. The sleek and modern design of the LMEZ series, combined with the practicality and increased performance of the drop lens, makes it a perfect solution for illuminating retail spaces, offices, and other commercial environments.
